A Community Approach to Advance Care Planning

We invite you to join your peers and care managers from across the continuum as we kick off a community effort in Advance Care Planning and MOLST utilization. Engage with us as we continue to learn together and drive our community to move toward the goal of developing a health-care system which respects and documents every individual's end of life wishes.

The day's events will include:

- Basics of Advance Care Planning
- A MOLST (Medical Orders for Life Sustaining Treatment) Overview
- An interactive experience around the use of Advance Care Plans and MOLST
- Community Resources Showcase
- Patient stories and an introduction to 'Conversations of a Lifetime'™

CEU's to
be offered
